# Lenovo Tab 2 A10-70 Power Button Replacement

This guide will illustrate the remove and replace the Lenovo Tab 2 A10-70 power button.

Written By: Tyler Hagenlocher

## INTRODUCTION

In order to remove and replace the power button on your tablet, a soldering iron will be needed.

## 🔧 TOOLS:

- iFixit Opening Tools (1)
- Soldering Workstation (1)

## Step 1 — Power Button

- Use a plastic opening tool to pry open the back cover of the tablet.

## Step 2

ⓘ The power button strip is only held in place by a small piece of double-sided tape.

- Gently use the precision tweezers to separate the power button strip from the interior frame of the tablet.

## Step 3

⚠ Be careful with the soldering iron to avoid injury.

● Remove the power button from the motherboard.

   ● Use the soldering iron to heat up the connections. Gently pull away from the motherboard after connections are detached.

To reassemble your device, follow these instructions in reverse order.
