

Leapfrog LeapPad 3 Front Facing Camera Replacement

This guide will involve taking the case off of...

Written By: Matt Irvine

INTRODUCTION

This guide will involve taking the case off of the Leapfrog and removing the motherboard.

TOOLS:

[Anti-Static Wrist Strap](#) (1)

[iFixit Opening Tool](#) (1)

[Phillips #0 Screwdriver](#) (1)

Step 1 — Battery

- Before taking apart your device, ensure that it is turned off and that your [anti-static wrist strap](#) is secured to a ground.
 - Remove the six 10.0 mm Phillips #0 screws from the outer case and remove the cover with your hands.
- ⓘ You will not need to pry the case off.

Step 2

- Unplug the battery from the motherboard with your hands.
- ⓘ The battery sits to the right of the motherboard.

Step 3

- Pry the battery gently off of the plastic platform with an opening tool.

⚠ Do not to puncture the battery, as the material inside can be dangerous.

Step 4 — Speaker

- Disconnect the audio cord from the motherboard using a plastic opening tool.
- ⓘ When re-plugging this cord be sure it is flush with the slot, otherwise the speaker and directional pad will malfunction.

⚠ Use caution when unplugging, and re-plugging the ribbon cord as they are fragile.

Step 5

- Unscrew the five 6.0 mm phillips head screws from the board containing the audio jack and directional pad.

Step 6

- Unscrew the three 6.5 mm phillips head screws holding down the speaker to the right of the audio jack.
- Remove the board and speaker from the device.

Step 7 — Motherboard

- Unplug the front facing camera cord with an opening tool to free the top of the motherboard.

Step 8

- Remove the three 6 mm phillips head screws holding the motherboard to the display assembly.

Step 9

- Carefully lift the motherboard out of the case, exposing the last remaining cord on the underside of the motherboard.
 - Disconnect the gold display assembly cord with an opening tool to fully disconnect the motherboard.
- ⓘ The device was rotated 180 degrees in order to unplug the display assembly cord.

Step 10 — Front Facing Camera

- Unscrew the eight 6.5 mm phillips screws from the plastic casing.

Step 11

- Remove the covering with your hand to expose the front facing camera.

Step 12

- Remove the front facing camera from the outer case.

To reassemble your device, follow these instructions in reverse order.
