

BLU Studio 5.0 II SIM Card Replacement

This guide will show you how to replace the SIM Card in your phone

Written By: Ricardo Sarabia

INTRODUCTION

Use this guide in order to replace a SIM card in your BLU Studio 5.0 II. This phone can store up to two SIM cards.

Step 1 — Battery

- ⚠ Turn off your phone before disassembling the device.
- Locate the small opening on the bottom corner of the back case.

Step 2

- Use your finger to open the back case by slowly pulling it on the open slot.
- Once the case is lifted on the corner, slide your finger along the edge of the phone to remove the rest of the case.

Step 3

- Locate the opening slot at the bottom of the battery.
- Use your finger to lift the battery and remove it from the case.

Step 4 — SIM Card

- Locate the SIM Card above the battery.

Step 5

- Use your finger to apply a small pressure on the SIM Card.
- Slide your finger downwards in order to remove the SIM Card from the slot.

To reassemble your device, follow these instructions in reverse order.
