Sony SRS-X55 I/O Board Replacement

Replace the I/O board on your Sony SRS-X55 speaker.

Written By: Bradley Conner

INTRODUCTION
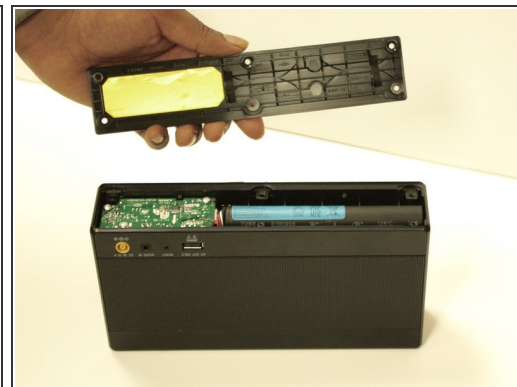

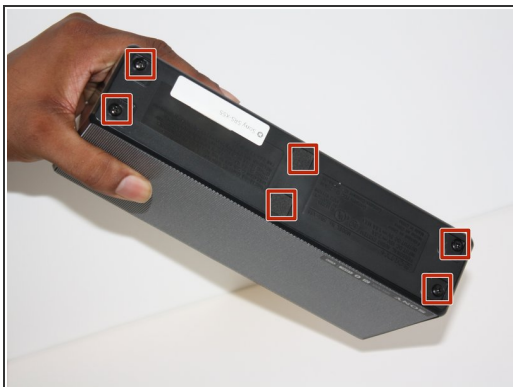

If your Sony SRS-X55 speaker won't play sound from the auxiliary jack, replacing the I/O board may resolve the problem.
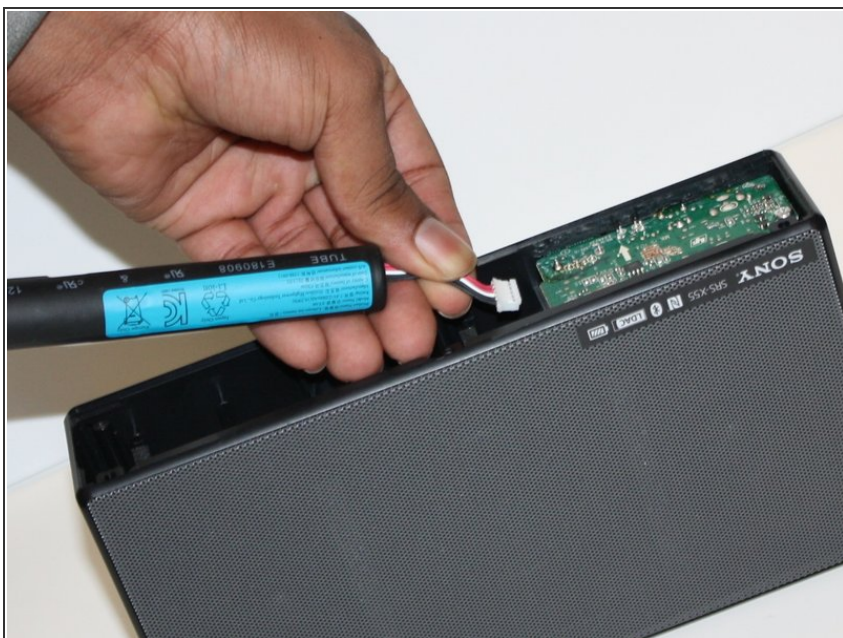

🔧 TOOLS:

- Phillips #1 Screwdriver (1)
- Spudger (1)

Step 1 — Battery

- Remove the six screw covers with a spudger.

- Remove the six 11 mm Phillips screws from the bottom panel.

- Remove the bottom panel of the speaker.

Step 2

- Disconnect the battery cable from the motherboard.

- Remove the battery.

Step 3 — I/O Board

- Remove the two Phillips screws from the I/O board.

- Remove the front panel to the speaker by pushing on the two tabs in the corners.

Step 4

- Disconnect the ribbon cable from the I/O board.

- Carefully remove the I/O board from the speaker.

To reassemble your device, follow these instructions in reverse order.
