Step 1 — Battery

- Power down the computer and unplug the power adapter.

Step 2

- Flip the laptop upside down. Locate the two latches on both sides of the battery.

Step 3

- Slide the latch on the right outwards, releasing the lock. The latch stays unlocked once moved.

- Simultaneously slide the latch on the left outwards while pulling the battery towards you.

⚠ Do not touch the metal connectors on the laptop and the battery.

Step 4 — Keyboard

- Pry under the plastic strip, starting on the top right side of the key board with a Heavy Duty Spudger.

- Once the first corner is raised, use your hand pulling upwards and release the rest of the strip.
Step 5

- Remove the first 3mm screw with the Phillips #1 screwdriver.

- Remove the next three 3mm screws.

Step 6

⚠ Lift the keyboard gently . Slide it forward towards the screen and speakers. This reveals the connection needed for the next step.

Step 7

- Use the pointed end of the Heavy-Duty Spudger and push the pins toward the screen, leaving them in this position.

- Carefully slide the connector out of the port.

To reassemble your device, follow these instructions in reverse order.
