

RCA RCT6203W46 Rear Speaker Replacement

In order to reach the rear speaker, the back of...

Written By: Nicholas Alexander

INTRODUCTION

In order to reach the rear speaker, the back of the tablet must be removed. This guide requires basic knowledge of soldering.

TOOLS:

Spudger (1)

Soldering Iron (1)

Phillips #00 Screwdriver (1)

Metal Spudger (1)

Step 1 — Rear Speaker

- Remove these four 4 mm Phillips #00 screws.

Step 2

- Run a spudger tool around the edge of the screen to loosen it and begin to pry upward.
 - The screen will be able to be removed once you see it pop up like it has in the photo.
- ⓘ There are wires attached to the back cover and screen so be careful not to pull them apart.

Step 3

- With a soldering iron, remove the wires from the circuit board.
- ⓘ Due to the size of the wires, [tweezers](#) may be necessary.

Step 4

- Use a metal spudger to pry out the speakers from its housing.

To reassemble your device, follow these instructions in reverse order.
