Insignia NS-B4111 Battery Replacement

## INTRODUCTION

This guide will teach you how to easily replace your batteries and keep your device running.

## Step 1 — Battery

- Unplug and remove the power cord. Turn the boombox upside down.
- Grip the sides of the case and use your thumbs to pop open the battery cover.

## Step 2

• Pry out the batteries with your fingers.

To reassemble your device, follow these instructions in reverse order. See this <u>manual</u> for battery placement.
