Dell Inspiron 15R 5520 Keyboard Replacement

How to replace the keyboard on 5520

Written By: Joseph Simplicio

INTRODUCTION

If some or all keys are not working, this replacement guide will help demonstrate how to replace keyboard.

## 🔧 TOOLS:

- Spudger (1)

Step 1 — Battery

⚠️ We are removing the battery to avoid the possibility of an electrical discharge when working with this system.
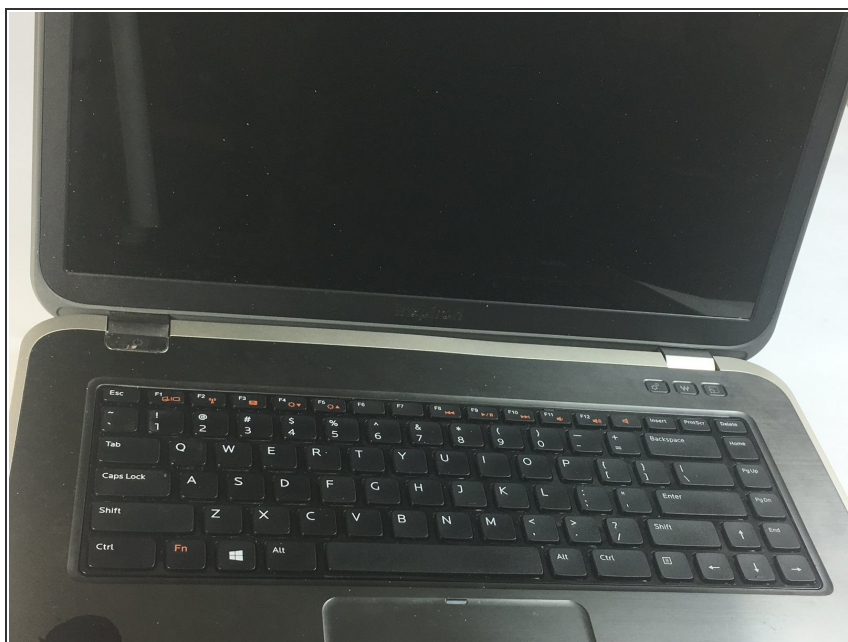

● Flip device on its back displaying the battery.

Step 2

● Place a finger on both latches and push outwards.

● Grab by the lip and pull upwards to remove battery.

Step 3 — Keyboard

- Flip device and open.

Step 4

- Locate the keyboard lining (between the black and silver).

- Place your spudger between the keyboard lining behind the x icon and home keys and pull up.

Step 5

- Lift up on latch.

Step 6

- Remove the keyboard cable.

To reassemble your device, follow these instructions in reverse order.
