🔧 **TOOLS:**

- Phillips #1 Screwdriver (1)
- Jimmy (1)

Step 1 — Mouse Cable

- Use a Jimmy to remove the mouse feet.

- Be careful to remove any film left by the mouse feet as well.

Step 2

- Remove the bottom mouse foot using a Jimmy and the same technique as in Step 1.

This document was generated on 2020-11-21 08:53:26 PM (MST).

Step 3

- Use a Phillips #1 screwdriver to remove the three 5 mm Philips screws on the bottom surface.
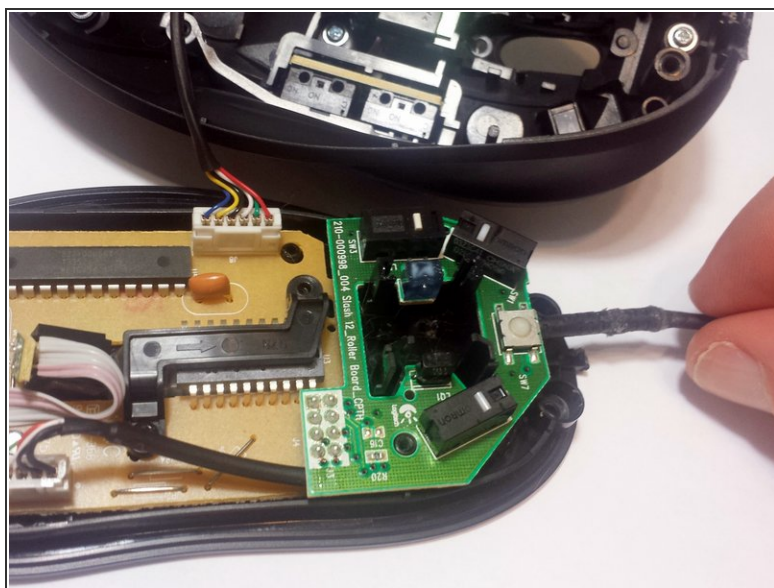

Step 4

- Gently pull the upper shell away from the bottom platform.

Step 5

- This is what the G400s will look like when the top shell is taken off.

Step 6

- Push the cable into its proper place inside the mouse shell.

To reassemble your device, follow these instructions in reverse order.
