# HP Compaq C700 Key Replacement

This guide will show how to remove a key from the keyboard of a HP Compaq C700 laptop.

Written By: Taylor Johansen

INTRODUCTION

This guide details the process for removing an individual key to gain access underneath the key.
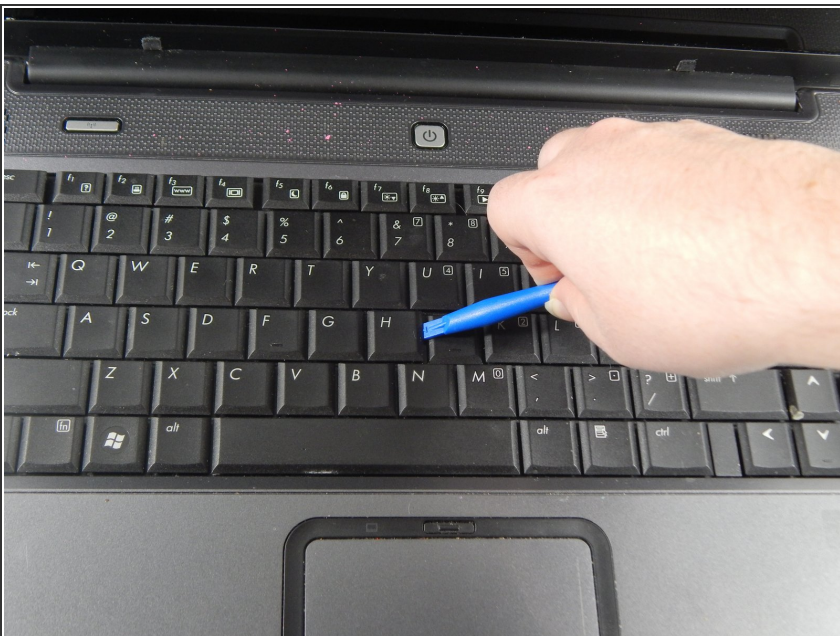

🔧 TOOLS:

- iFixit Opening Tools (1)

Step 1 — Key

⚠️ It is advised to work on the device only when it is powered off so as to avoid electrocution risks.

- Turn off computer by pushing and holding on the power button located above the keyboard.

Step 2

- Position the opening tool under the edge of the key.

- Gently pry up one side of the key until the key pops out of place.

To reassemble your device, follow these instructions in reverse order.
