Step 1 — Power Button

- Use a J1 Phillips screwdriver to remove the four 6.1 mm screws at the back of the monitor.
Step 2

- Use a metal spudger or an opening tool to pry open the device.

Step 3

- Use a J1 Phillips screwdriver to remove the three 6.1 mm screws on the motherboard.

Step 4

- Carefully, lift the motherboard and turn it to the backside.

- Desolder the four corners of the power button. Please follow this link on how to proceed to desolder: How To Solder and Desolder Connections

To reassemble your device, follow these instructions in reverse order.
