

Motorola XOOM 2 Media Edition Back Facing Camera Replacement

This guide will explain how to remove the back facing camera from your device.

Written By: Jillian Cain

INTRODUCTION

Having troubles with your back camera not working? Here is a guide to replace it!

TOOLS:

- [iFixit Opening Tools](#) (1)
 - [T3 Torx Screwdriver](#) (1)
 - [Tweezers](#) (1)
-

Step 1 — Motorola XOOM 2 Media Edition Disassembly

- i** Power off the device before beginning disassembly.
- Remove six 2.7mm Torx #3 screws.

Step 2

! There is adhesive attached to the underside of the back panel. Gradually lift the panel to avoid bending it out of shape.

- Pry off the back panel using a plastic opening tool.
- Using a plastic opening tool, slide the tool gently around the back cover to lift the cover off.

Step 3

- Pry off the black cover gradually using a plastic opening tool.

Step 4 — Back Facing Camera

- Gently remove the blue tape near the camera using the tweezers.

Step 5

- Using the tweezers, remove the camera by grabbing the metal and pulling it out.

To reassemble your device, follow these instructions in reverse order.
