Step 1 — Battery

- Slide the back cover down towards the bottom of the phone to remove.

Step 2

- Pull the top of the battery towards you to remove it from the phone.

Step 3 — Front Panel

- Unscrew the two screws located at the bottom of the phone.

- (i) Use a PH00 Phillips head to remove the 9 mm screws.

Step 4

- Separate the back cover from the front cover by using a wedge.

- Remove the back cover from the front cover by pulling them apart.
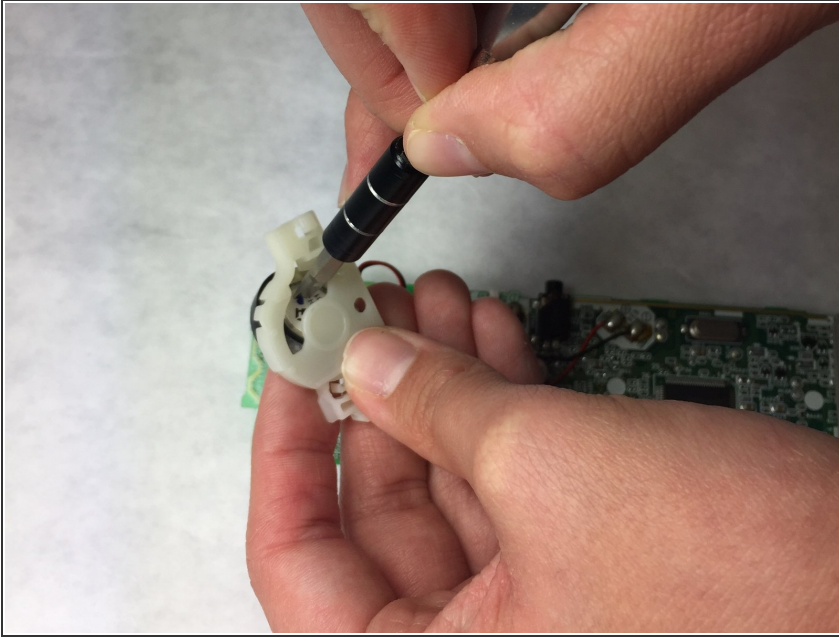

Step 5

- Remove three screws on the motherboard.

- Pull the phone face off of the motherboard.
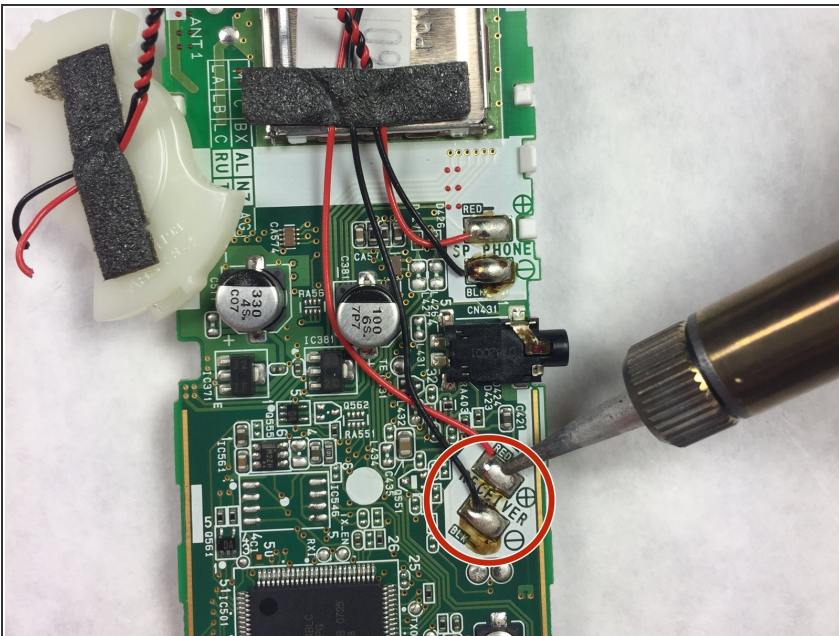

Step 6 — Front Speaker

- Remove the front speaker housing by detaching it from the circuit board.

Step 7

- Pop out the front speaker from the housing.

Step 8

- Desolder the two connections and remove the wires from the circuit board.

To reassemble your device, follow these instructions in reverse order.
