Dell Vostro 1500 Hard Drive Replacement

This guide will show the steps to replace the hard drive of your Dell Vostro 1500 computer.

Written By: Nathaniel Joyal

INTRODUCTION

The instructions that follow will show how to replace the hard drive of your Dell Vostro 1500 computer. The hard drive is a component of a computer that both stores and retrieves data.

🔧 TOOLS:

- Mako Driver Kit - 64 Precision Bits (1)

Step 1 — Battery

- Make certain the power is off.

Step 2

- Press and slide the buttons inward.

Step 3

- Slide the battery away from the computer.

Step 4

- Remove the battery from the slot.

Step 5 — Hard Drive

- Unscrew the four Phillips head screws on the back of the computer.

Step 6

- Press the small black button on the side of the computer. There should be a piece that slightly pops out when this is done.

Step 7

- Pull the piece that protruded out slightly in the last step away from the computer to remove the hard drive.

To reassemble your device, follow these instructions in reverse order.
