Step 1 — Fan

- Flip the laptop over and remove six 7.25mm screws.

Step 2

- Using the plastic opening tool or spudger, separate the keyboard from the frame of the laptop.

- Gently pull the keyboard away from the laptop, toward you, until it is completely separated from the laptop.

Step 3

- Remove the four 7.25mm screws located by the red markers.

Step 4

- Gently lift the panel up, exposing the inside of the laptop.

Step 5

- The fan is located in the top, left hand corner. Now, it can be gently lifted out using your hands.

To reassemble your device, follow these instructions in reverse order.
