## Step 1 — Back Panel

- Squeeze the eyepiece between your index finger and thumb and lift up and off.

## Step 2

- Using the PH000 screwdriver head, remove the four 4 mm screws on the bottom of the camera.

This document was generated on 2022-05-21 12:03:36 AM (MST).

## Step 3

- Using the PH000 screwdriver head, remove the two 3mm screws on the right side of the camera (from the LCD screen).

## Step 4

- Remove grip by slowly peeling off.

## Step 5

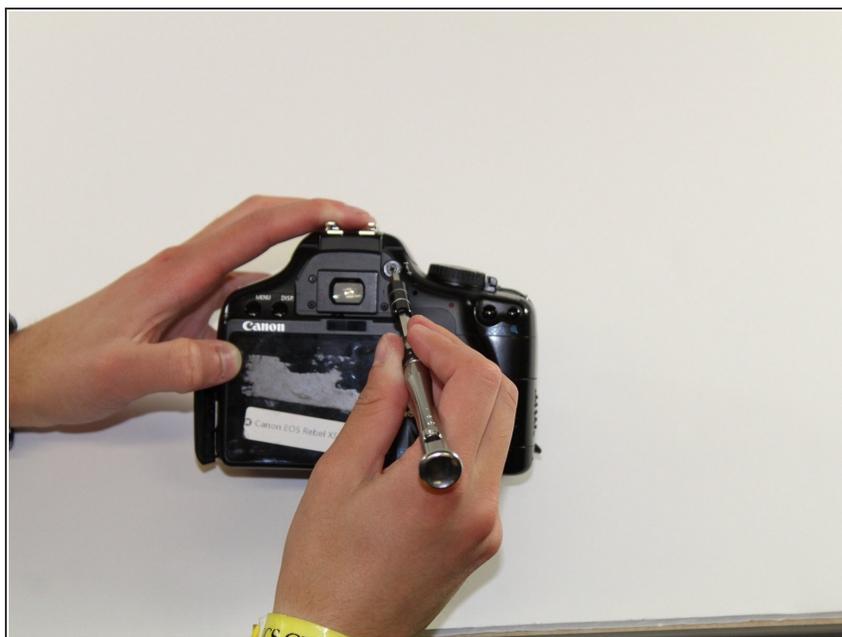

● Using the PH000 screwdriver, remove the four 4mm screws behind the eyepiece.

## Step 6

● Using the PH000 screwdriver head, remove one 4 mm screw on the left side of the camera (from the LCD screen).

## Step 7

- Remove the side panel by lifting off with fingers.

## Step 8

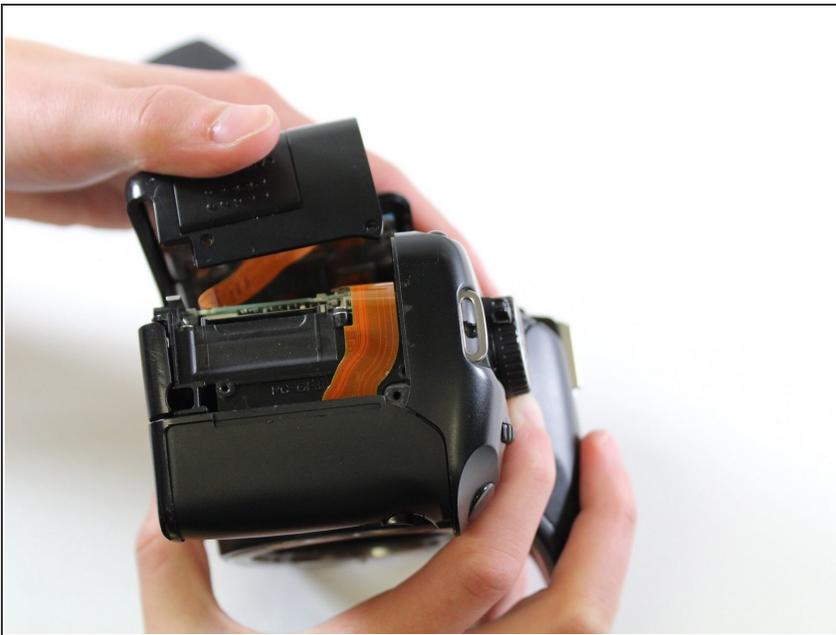

- Use hands to pry off the back panel.
