

Samsung Powerbot R9250 Wheel Replacement

This guide will lay out the steps to replacing the wheel on the Samsung Powerbot R9250.

Written By: Ethen Sanchez

TOOLS:

- [Mahi Driver Kit - 48 Bit Driver Kit](#) (1)
 - [Metal Spudger](#) (1)
-

Step 1 — Wheel

- Flip the bot onto its side with the wheel you want to remove on top.

Step 2

- Remove the round white cap on the outside of the wheel.

Step 3

- Next, pry and remove the white casing that runs around the back round part of the bot.

Step 4

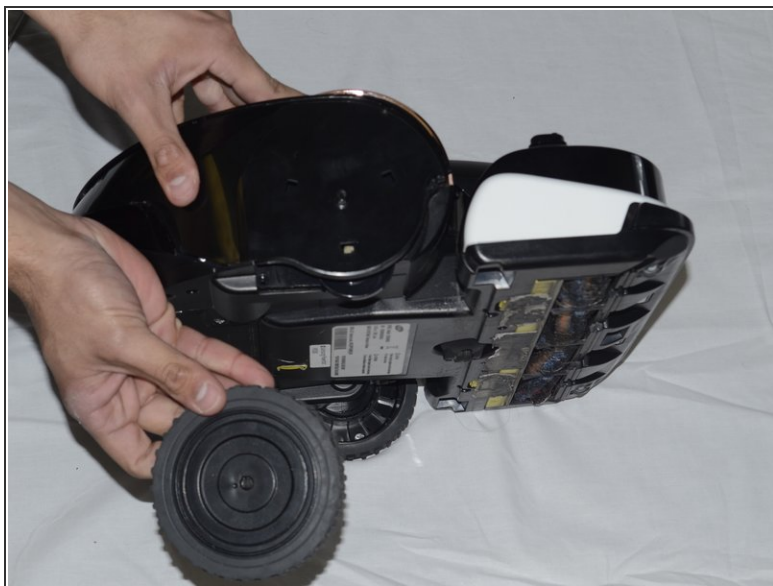

- Continue until the whole white casing comes off.

Step 5

- For the wheel you want to remove, there is a small square opening on outer black protective layer still around the wheel. Locate the screw that is inside the whole. Remove this screw.

Step 6

- Pry the black protective layer away from the wheel, and pull the wheel out.

To reassemble your device, follow these instructions in reverse order.
