Step 2

- Lift one side of the battery using a plastic opening tool or your fingers.

- Carefully remove the battery and set it aside.

- ⭐ When installing the new battery, make sure to align the metal pins with those of the phone.

Step 3 — Front Bezel

- Turn your phone around and open the flip phone.

- Locate the two grey rubber plugs on the LCD portion of the phone. These plugs cover up two screws.

- Remove the two grey screw-covers at the bottom of the screen

Step 4
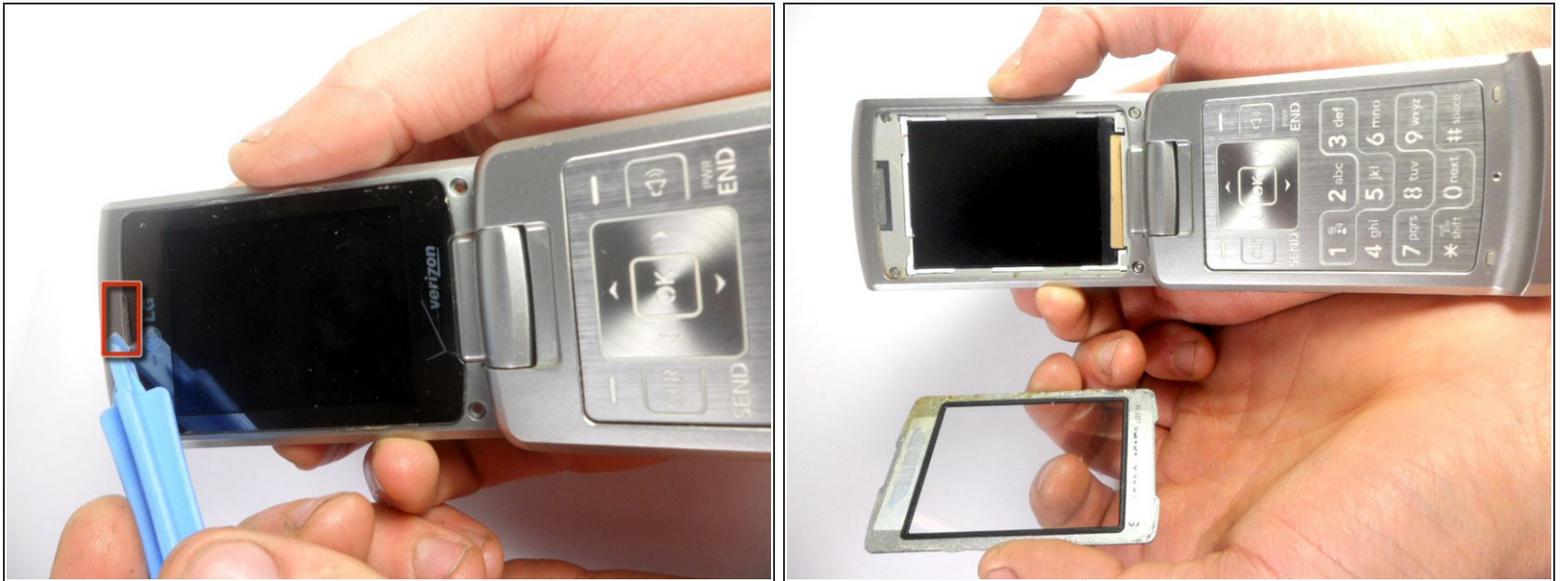

- Remove the screen by using the tab to eject the screen.

  - There is a gap between the case and the screen near the ear piece

  - Insert the plastic opening tool in the gap and pry the screen up.

- ⓘ The plastic screen cover is glued onto the phone, do not be alarmed if it may be difficult to pry it off.

Step 5

- Unscrew the four corner 3.21mm screws to separate the the top cover of the phone

Step 6
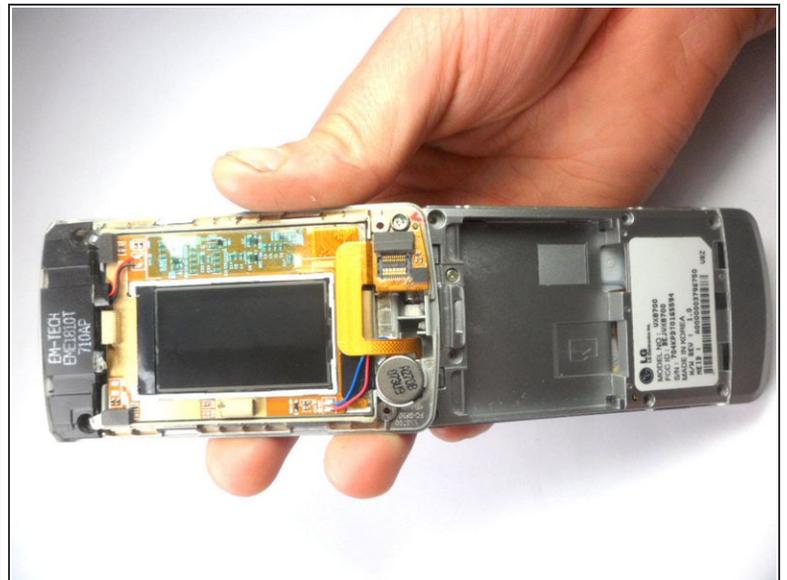

- Turn your phone around

- Remove the top cover of the phone by inserting the plastic opening tool into the groove.

- Carefully open the cover.
