HP Compaq Presario V3000 RAM Replacement

This guide will show how to remove and replace RAM

Written By: Bernard Lee

INTRODUCTION

This guide will show how to remove and replace RAM

🔧 TOOLS:

Phillips #0 Screwdriver (1)
Tweezers (1)
Magnetic Project Mat (1)

Step 1 — RAM

- Locate the two screws holding the RAM cover in place

- Use Phillips #0 screwdriver to remove the two 4.5mm Philips head screws

- ⓘ Place screws on magnetic mat to help avoid losing the screws

- Lift the RAM cover towards the battery eject latch

Step 2

- Lift foil covering RAM retention clips

⚠️ **Only pull the foil until the retention clips are visible. Do NOT continue pulling after.**

ⓘ Retention clips should be on the sides of the RAM chip

Step 3

- Push retention clip on each side of RAM **OUTWARDS**
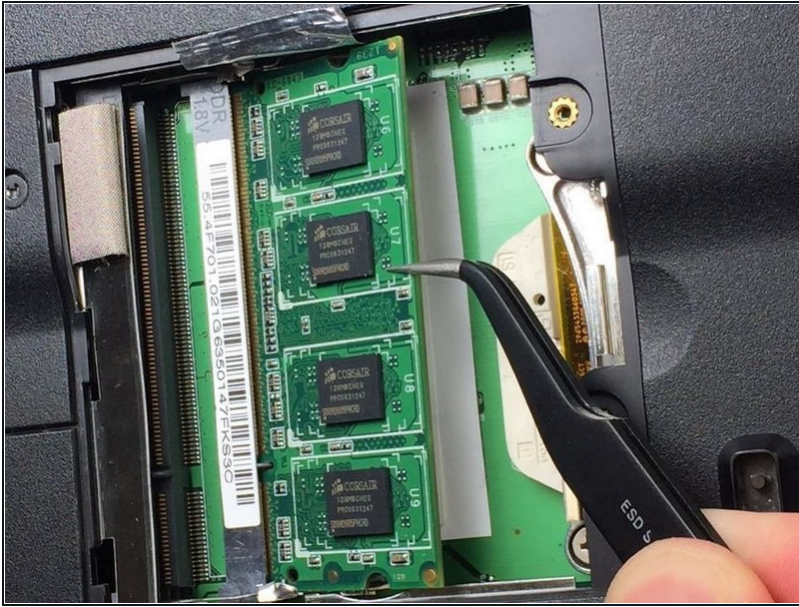

- RAM will pop up

Step 4

- Using [tweezers](), carefully pull the RAM chip away from the RAM slot

Step 5

- Push retention clip on each side of the second RAM chip OUTWARDS

- RAM chip will pop up

Step 6

- Repeat Step 5 and use tweezers to carefully pull RAM away from RAM slot

---

To reassemble your device, follow these instructions in reverse order.
