Step 1 — LCD Screen

- Use a Philips #000 screwdriver to remove the three 2mm screws on the bottom of the LCD screen.

Step 2

- Tilt the LCD screen all the way up and use a Phillips #000 screwdriver to remove the three 4mm screws from the back of the LCD screen.

Step 3

- Remove Back panel from LCD screen.

- Use a spudger tool to release ribbon cable from the ZIF connector.

⚠ The cable is thin and delicate. Detach with care.

Step 4

- The screen is detached and can now be replaced.

To reassemble your device, follow these instructions in reverse order.
