

Andoer HDV 107 Lens Replacement

Replace lens

Written By: Isaac Saron

INTRODUCTION

This guide is to replace the lens component in case it was not working properly due to scratches.

TOOLS:

- [Phillips #000 Screwdriver](#) (1)
-

Step 1 — Lens

- Remove the top screw to the right of the screen.

Step 2

- Now remove the lens by grabbing it and pulling it away from the camera.

To reassemble your device, follow these instructions in reverse order.
