

Konica Minolta DiMAGE Z3 SD Memory Card Replacement

Replace SD Memory card in the Konica Minolta DiMAGE Z3.

Written By: Hieu Ngo

INTRODUCTION

The SD Memory Card must be inserted for the camera to function. If a card has not been inserted, a "no-card" warning is displayed on the LCD monitor when the camera is turned on.

Step 1 — SD Memory Card

- Open the memory card chamber on the bottom panel of the camera.

Step 2

- Push to eject the old memory card out of place.

Step 3

- Insert the new memory card in. Make sure that it is inserted in the appropriate direction.

Step 4

- Close the memory chamber and start the camera again.

To reassemble your device, follow these instructions in reverse order.
