

Gateway ID49C07U RAM Replacement

Written By: Patrick McGrail

 **TOOLS:**

- [JIS Driver Set](#) (1)
-

Step 1 — Battery

- Turn the laptop over so the bottom of the device is facing upwards with the hinge facing away from you.

Step 2

- Locate the switch on the top left of the laptop labeled with a padlock symbol.
- Flip the switch in the direction of the unlocked padlock symbol.

Step 3

- Locate the switch that releases the battery and slide it to the right.

Step 4

- While holding the release switch to the right, pull the battery away from you.

Step 5 — RAM

- Locate two screws securing back panel
- Unscrew both

Step 6

- Remove plate from device

Step 7

- Locate RAM
- Push tabs apart to release memory

Step 8

- Pull out memory

To reassemble your device, follow these instructions in reverse order.
