This guide shows how to remove the battery from the iRobot Roomba 860 for battery replacement and safe further disassembly.

Written By: Ryan Murphy

INTRODUCTION

If your iRobot Roomba 860 Battery needs replacement or to safely further disassemble this product, this guide can help

TOOLS:

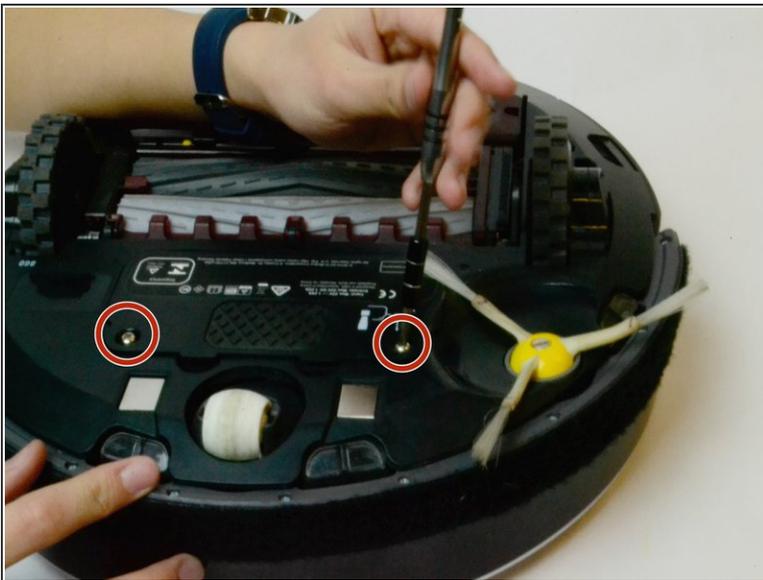

- [Phillips #2 Screwdriver](#) (1)
-

Step 1 — Battery

- Start by powering down the device to remove the battery from the iRobot Roomba 860.

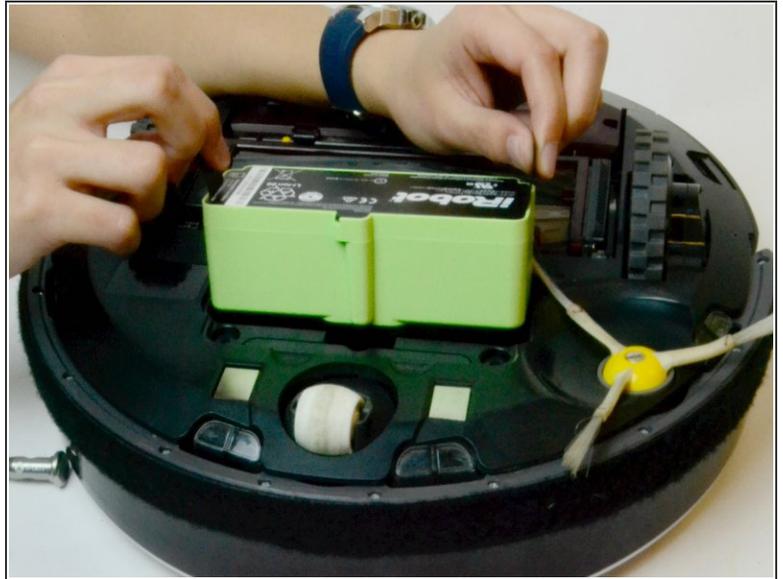

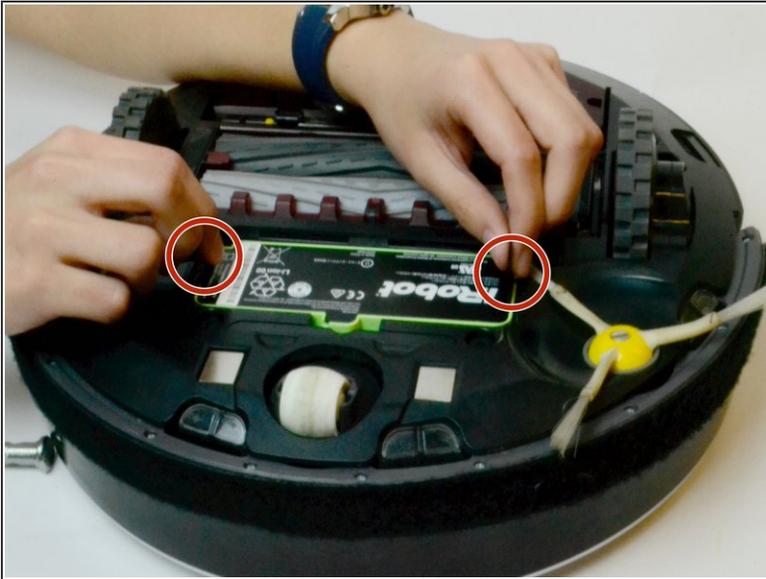

Step 2

- Flip the Roomba over so that the underside is facing up.
- Locate the battery panel and the 2 - 7 mm Phillips #2 Point Screws.
- Using a Phillips #2 Screwdriver, remove the screws and use your fingers to pull the cover away from the device.
