Google Chromebook Pixel 2 Back Panel Replacement

This guide will help you remove and replace the back panel of your Chromebook.

Written By: Garrett Monteiro

INTRODUCTION

This guide describes the necessary steps to remove the back panel of the device. This is a prerequisite for accessing all of the internal components of the device.

TOOLS:

- Phillips #00 Screwdriver (1)

Step 1 — Back Panel

⚠️ Working on your device while it is turned on may result in electric shock. Make sure to shut down and unplug your device before you begin.

● Flip your device over so the bottom panel is facing up.

Step 2

● Peel off the black rubber strips from top and bottom of the back panel.

Step 3

● Remove the fifteen 3 mm Phillips #00 screws from the back panel.

Step 4

● Carefully lift the back panel off of the device.

To reassemble your device, follow these instructions in reverse order.
