INTRODUCTION

If the battery is not charging and/or not holding a charge, or if the device has taken in water, you are going to want to remove and replace the battery. This guide will show you how to remove the battery so that it may be replaced.

This document was generated on 2020-11-23 06:20:22 PM (MST).
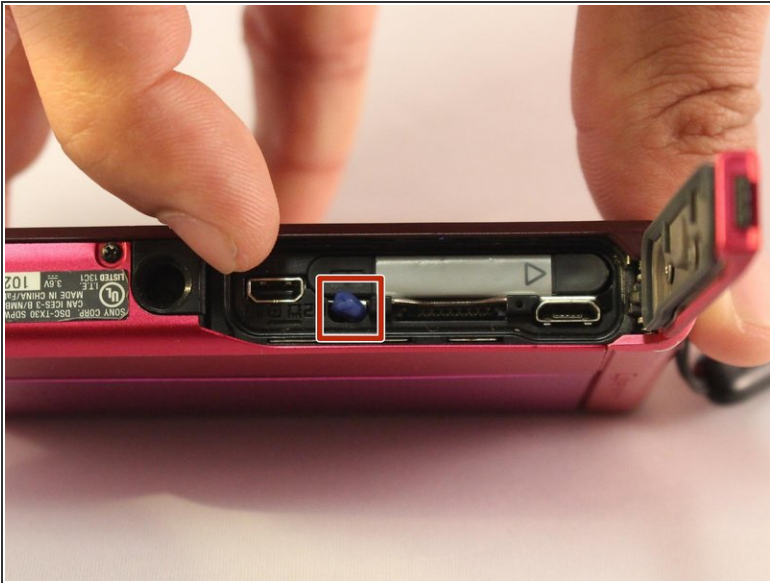

Step 1 — Battery

- Using your finger, slide the release catch to unlock the battery/memory card cover.

Step 2

- Open the battery/memory card door.

Step 3

- Push the battery eject lever to free the battery.

Step 4

- Remove the battery from the device.

To reassemble your device, follow these instructions in reverse order.
