

# Samsung Galaxy Tab 8.9 LCD Screen Replacement

Use this guide to replace the LCD screen on your Samsung Galaxy Tab 8.9.

Written By: Eric Bird

---

## INTRODUCTION

This guide will walk you through the process of replacing a broken, frozen, or unresponsive display screen on a Samsung Galaxy Tab 8.9.

---

### TOOLS:

- [iFixit Opening Tools](#) (2)
-

## Step 1 — Insert Opening tool

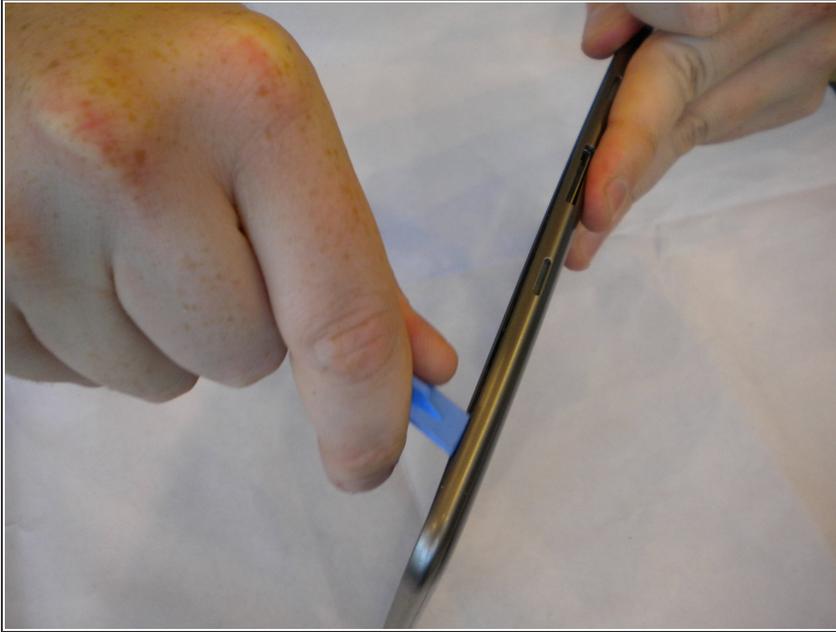

- Insert a plastic opening tool between the back cover and screen of the Samsung Galaxy Tab 8.9 (as indicated in the photograph).

## Step 2 — Insert second tool

- Insert a second plastic opening tool 6 cm (~2.4 inches) away from the first tool.

### Step 3

- Slide the second plastic opening tool along the edge of the device to separate the back cover.

### Step 4

- Using your hands, remove the back cover.

## Step 5 — Display

- Using tweezers, peel away the green tape located on top of the two flexible ribbon cables.

## Step 6

- Slide out the yellow flexible ribbon cable to disconnect it from the motherboard.

## Step 7

- Remove green tape from lcd connector.

## Step 8

- Pull lcd cable out of connector.

## Step 9

- Slide metal tool around perimeter to release glue.

 Be careful not to damage the yellow ribbon cable.

## Step 10

- Pull glass cover from main frame.

## Step 11

- Pry screen from housing.

To reassemble your device, follow these instructions in reverse order.
