

# Huawei P9 Plus Rear Case Replacement

This guide describes the removal and replacement of the rear case of a Huawei P9 Plus.

Written By: Dominik Schnabelrauch

## INTRODUCTION

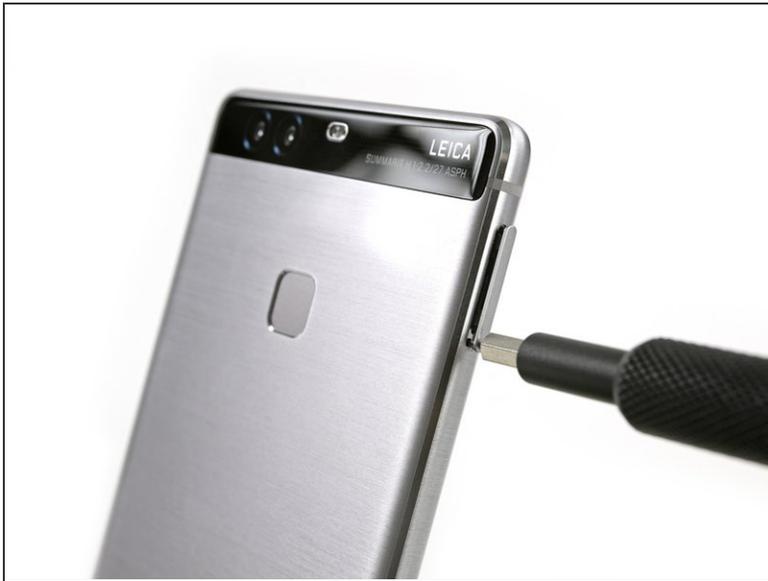

Use this guide to remove and replace the rear case of a Huawei P9 Plus.

---

### TOOLS:

- [SIM Card Eject Tool](#) (1)
  - [Spudger](#) (1)
  - [iSclack](#) (1)
-

## Step 1 — Rear Case

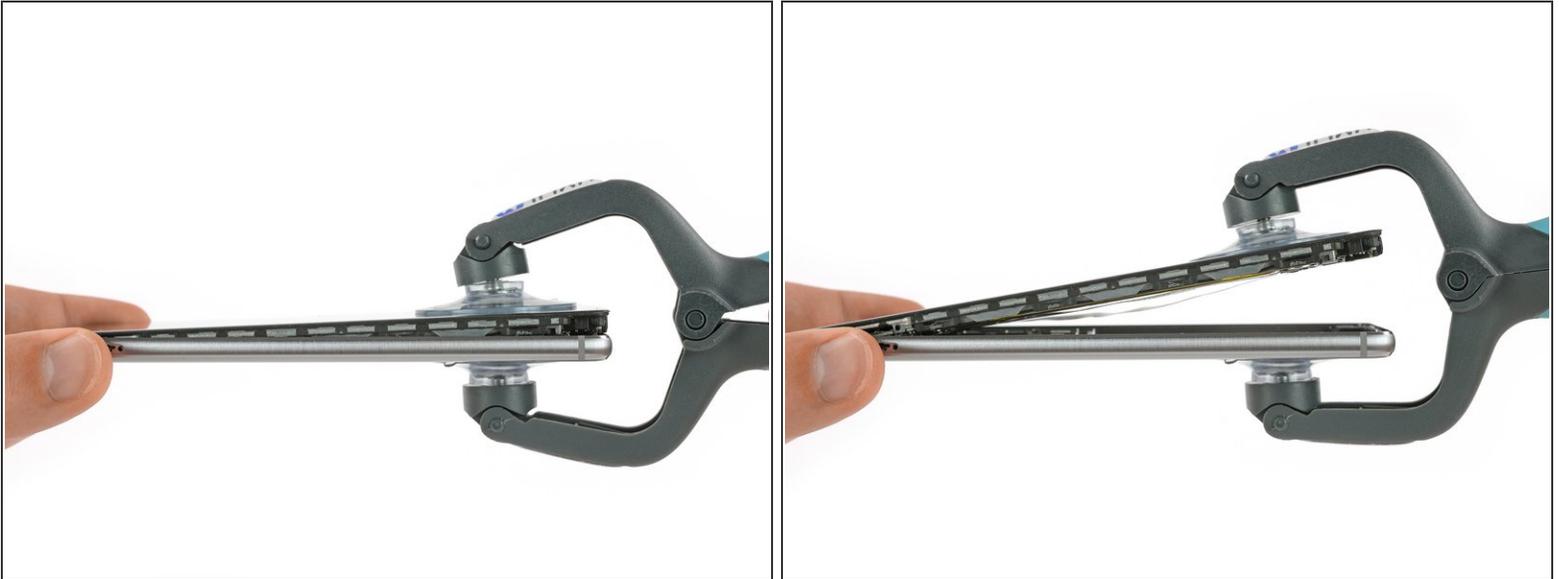

- First switch off your phone.
- Remove the SD and SIM card tray.

## Step 2

- Remove the two P2 Pentalobe screws on either side of the USB C port.

### Step 3

- Use an iSclack or a suction handle to separate the display unit from the rear case.
- ⚠ Do not fully separate the pieces as they are still connected by the fingerprint sensor cable.

### Step 4

- After separating the rear case flip the other half open to get to the flex connectors.
- With a spudger unplug the flex connector of the fingerprint sensor and the one of the side buttons.
- Remove the rear case.

To reassemble your device, follow these instructions in reverse order.
