

HP Pavilion 15-bk020wm Keyboard Cover Replacement

This guide will walk you through the process of replacing a broken keyboard cover in an HP Pavilion 15-bk020wm laptop.

Written By: Meshayla Block

INTRODUCTION

This guide will assist you in replacing the keyboard cover on your HP Pavilion 15-bk020wm device. Your device might need this replacement due to rough handling. This is also a prerequisite guide for further device dismantling.

TOOLS:

- [iFixit Opening Tools](#) (1)
- [Phillips #00 Screwdriver](#) (1)
- [Spudger](#) (1)

PARTS:

- [HP Pavilion 15 Upper Case](#) (1)

Step 1 — Keyboard Cover

 Before you begin, turn the laptop off and unplug it from the power source.

- Remove the 4 computer feet. (Our device didn't have these; they can be taken off with a plastic spudger.)
- Remove the two screw cover strips.
- Remove the two screw cover plugs.
- Unscrew all 12 screws (size: Phillips M2.5×7.0) from the bottom of the computer.

Step 2

- Turn the computer over to the front.
- Open the laptop.
- Use a plastic pry tool to pry up the keyboard cover near the hinge on both the right and left side, and work your way towards the touchpad.

Step 3

- Tilt the keyboard cover up slightly.

 Do not fully remove the keyboard, as it is still attached to the laptop by some cables.

To reassemble your device, follow these instructions in reverse order.
