Step 1 — Battery

ⓘ Before begining, make sure the phone is turned off.

- On the back of the phone, find the slot at the charging port located at the bottom of the phone.

- Either insert the plastic opening tool or use your fingernail to pull up on the back cover.

- Once you get the corner released, slide your finger around the outside until the back cover releases.

Step 2

- Locate the battery.

- Insert fingernail or plastic opening tool into the slot on bottom of the battery and gently lift up.

- Remove the battery.
