PARTS:

- [AA Batteries](#) (2)

Step 1 — Battery

- Turn over the controller so that the buttons face down.
- ⚠ Be gentle when removing the cover so you do not break the small plastic tabs holding the cover to the controller.
- Remove the battery cover carefully by sliding the cover up in the direction of the arrow.

Step 2

- Remove the two batteries AA batteries by lifting them from one end and pulling them out.

To reassemble your device, follow these instructions in reverse order.
