

Logitech G930 Earpads + Headband Replacement

In this guide, I will show how to replace the Earpads and the Headband for the Logitech G930 Logitech Wireless Gaming Headset.

Written By: Vladislav Ignatov

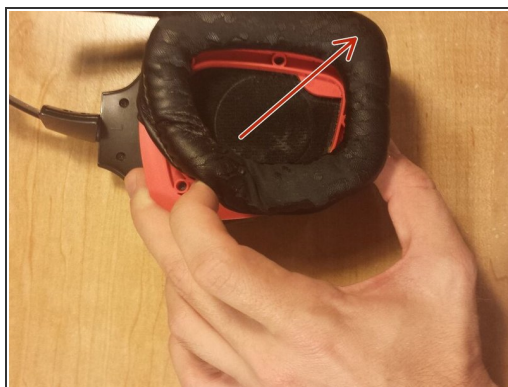

Step 1 — Set Up

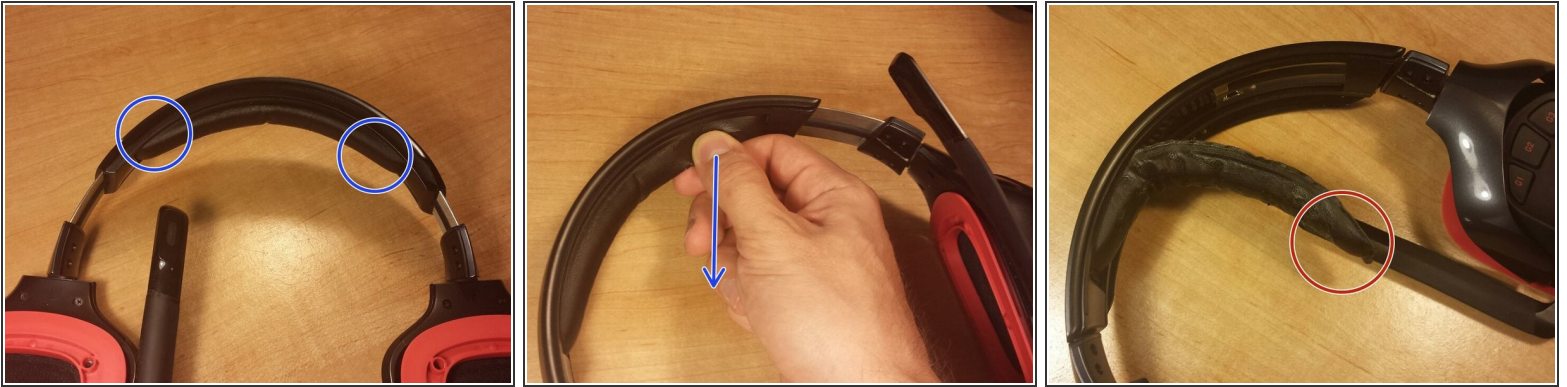

- Place the headset with the earpads up.

Step 2 — Removing the Earpads.

- Grab the top right corner of the ear pad and pull way from the headset. Do the same to the other side.

Step 3 — Removing Headband

- Pinch the edge of the headband and pull away from the head set while holding it down.
- Grab the end and pull the headband out all the way.

Step 4 — Parts and replacement

- I got these parts of ebay. They are very common.
- To place these part on just follow these instructions in reverse order.

To reassemble your device, follow these instructions in reverse order.
