INTRODUCTION

This guide will show you how to remove the back cover of this device. It may be difficult so take your time.

TOOLS:

- JIS #1 (1)
- Heavy-Duty Spudger (1)
- Tweezers (1)

This document was generated on 2020-11-17 11:09:12 AM (MST).

Step 1 — Back Cover

⚠️ Turn the laptop off, unplug the AC adapter, and any other auxiliary components.

● Turn over the laptop and proceed to take out the seven 5mm silver JIS #1 head screws. If some of the screws are difficult to take out use the tweezers to help.

Step 2

● Use the screwdriver to take out the three 5mm black JIS #1 head screws that are located on the hinge.

Step 3

- Use the spudger to pry under the back cover until it pops off.

To reassemble your device, follow these instructions in reverse order.
