

Ninja Coffee Bar CF086 Water Reservoir Lid Replacement

A guide detailing the replacement procedure for the Ninja Coffee Bar CF086 Water Reservoir Lid.

Written By: David Ton

INTRODUCTION

The water reservoir contains the water that is used in brews. This guide shows how to replace the water reservoir lid.

Step 1 — Water Reservoir Lid

 Make sure the Ninja Coffee Bar is unplugged.

- Remove the water reservoir.

Step 2

- Twist the water reservoir lid counterclockwise to remove it.

To reassemble your device, follow these instructions in reverse order.
