ASUS Chromebook C300MA-DH01 Display Replacement

This guide will demonstrate how to replace a broken, cracked, or damaged display screen on the ASUS Chromebook C300MA-DH01.

Written By: Gina Altimari

INTRODUCTION

Use this guide to replace the display on your device.

🔧 TOOLS:

- JIS #000 Screwdriver (1)
- iFixit Opening Tools (1)

Step 1 — Display

- Flip open the Chromebook as shown. Using the plastic opening tool, gently pry open the hinge cover of the display. Once it snaps off, remove the hinge cover.
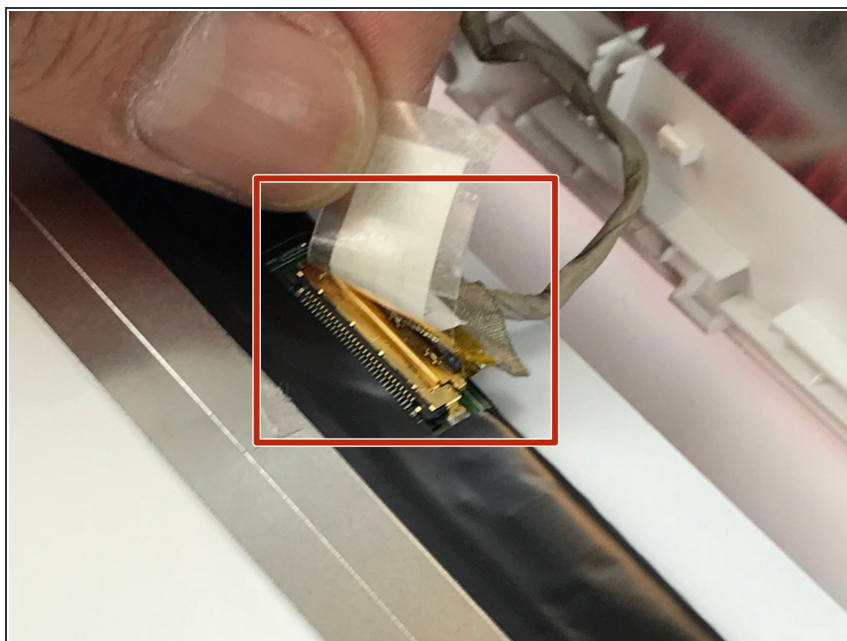

Step 2

- Continue to use the plastic spudger to gently pry the front frame from the display. It will come off with a snap.

Step 3

- Using the JIS J000 Screwdriver, unscrew and remove the (4) four 3mm screws from the display.

Step 4

- Gently peel back the tape to remove the display.

To reassemble your device, follow these instructions in reverse order.
