Lenovo Thinkpad T410i LCD Screen Replacement

How to replace and reinstall the LCD screen for your Lenovo Thinkpad T410i.

Written By: Harsh Patel

INTRODUCTION

If the LCD screen of your Lenovo ThinkPad T410i is broken or you wish to install a new screen, this guide will show you how to replace and reinstall the screen.

Guide notes

- This guide is hardware only, and it would not help resolve issues such as screen staying black or screen not responding to input.
- Unplug the system from the power source (if it is plugged in), and remove the battery before you perform any of the steps.
- Once you install the new LCD screen, safely dispose the old one.

TOOLS:
- Phillips #0 Screwdriver (1)
- Spudger (1)

PARTS:
- Lenovo Thinkpad T410i Screen Bezel (1)
- Lenovo Thinkpad T410i LCD screen (1)

Step 1 — Screen Bezel

- Use a spudger to remove the plastic covers from the LCD screen.

Step 2

- Remove the two 6.0mm screws on each side using Philips #0 head screwdriver as shown in the picture.

Step 3

- Use a spudger to separate the bezel of the LCD screen.
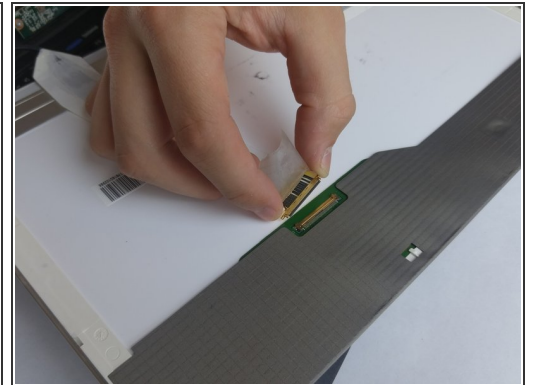

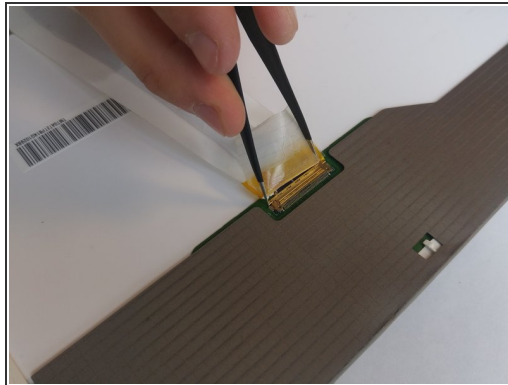

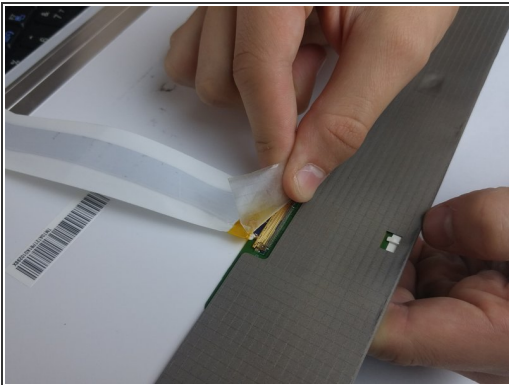

Step 4

- Continue along the edges lifting up and prying off the plastic LCD bezel.

Step 5 — LCD screen

- Use a Philips #0 head screwdriver to remove the two 6.0mm screws from the top corners of the LCD screen.

Step 6

- Place the LCD screen safely down on its front.

  ⚠ Pulling the screen too far away from the screen may damage delicate ribbon cable.

- Peel the tape off the ribbon cable's contacts.

- Carefully detach the ribbon cable from the LCD screen.

  ⚠ Poking the golden contacts may easily damage them.
