Step 5

- Notice the L-shaped battery in the lower right corner of the opened laptop.

- Disconnect the battery from the slot it is connected to. You'll need to push on the sides of the clip and pull.

Step 6

- Lift up the battery with your fingers and remove it from the laptop.

- Place the battery away from the laptop in a safe spot and insert your new battery by hooking it up to the slot you previously disconnected the old battery from.
