

Sphero Ollie Tire and Hubcap Replacement

Replace the tires and hubcaps if they are damaged or you want to customize your Ollie.

Written By: Kakkada Tho

INTRODUCTION

If Ollie's tires or hubcaps are damaged, worn out, or you just want an update, then try replacing them. This guide will walk you through how to replace the tires and hubcaps with only your hands and a Plastic Opening Tool!

TOOLS:

- [iFixit Opening Tools](#) (1)
-

Step 1 — Tires and Hubcaps

- Firmly grasp Ollie in one hand.
- Remove the blue rubber tire in a peeling motion with your opposite hand.

Step 2

- Continue to firmly hold Ollie in one hand.
- Use a Plastic Opening Tool to gently pry off the hubcap.
- ⓘ Avoid inserting the Plastic Opening Tool into the empty holes, but instead use the tool near the tabs holding the hubcap in.
- ⚠ Do not aim the hubcap towards another person as it may pop off with force.

To reassemble your device, follow these instructions in reverse order.
