Step 1 — Hard Drive

ⓘ The screw will not come out, after you unscrew it.

● Unscrew the 2.5 mm screw with PH00 screwdriver.

● Pull the cover off the computer using two hands.

Step 2

● Unscrew the all four 2.5 mm screws with the PH00 screwdriver.

● Then carefully pull to the right the hard-drive. It should release from its container.

To reassemble your device, follow these instructions in reverse order.
