Toshiba Portege R835-P56X Screen Replacement

Removal of the screen on the Toshiba Portege R835-P56X

Written By: Anay Sanchez

INTRODUCTION

In this guide we will remove the screen from a Toshiba Portege R835-P56X

🔧 TOOLS:

- Tweezers (1)
- iFixit Opening Tools (1)
- Phillips #0 Screwdriver (1)

Step 1 — Battery

- Place the laptop with the battery facing up.

⚠️ Make sure the laptop is powered off and unplugged.

Step 2

- Unlock the clips by pulling towards the open lock.

Step 3

- Hold the unlock clip while pulling the battery away from the laptop.
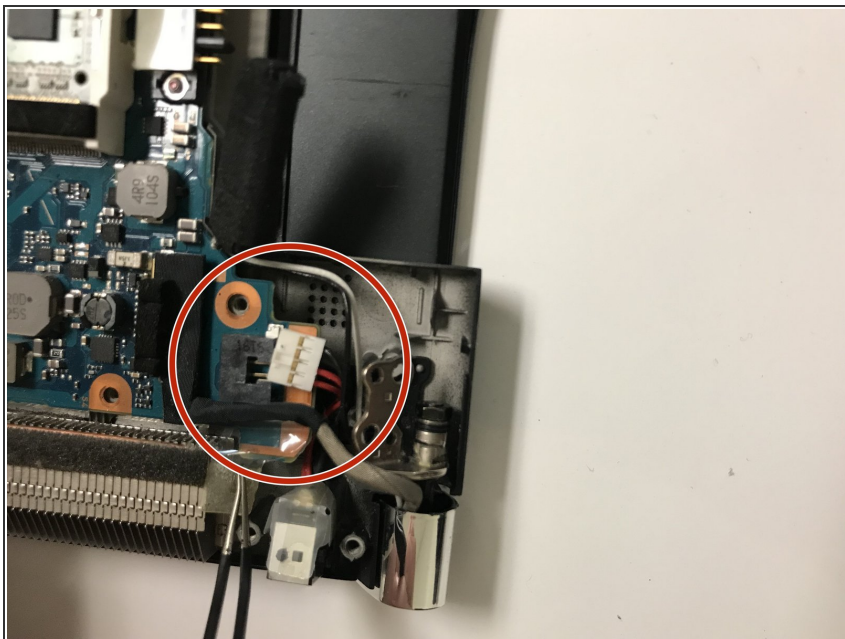

Step 4 — Screen

- Use the screwdriver to unscrew 18 screws.

- Remove the back cover of the laptop.

Step 5

● Remove the screw from the metal hinges in the top corners of the laptop as shown in the picture.

Step 6

- Disconnect the white plug with red and black wires located on the right-most upper corner with the chrome hinges pointed farthest away from you.

Step 7

- Remove the chrome hinges using the blue prying tool. The hinges should pop right off without must effort.

Step 9

● Using tweezers, remove the plastic caps from the top edge of the laptop screen, located near the front-facing camera. All but the cap closest to the camera should be removed.
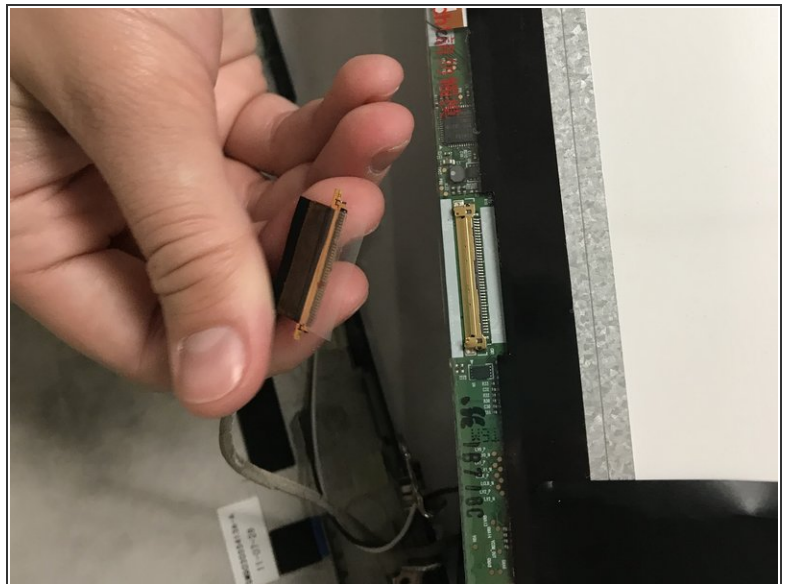

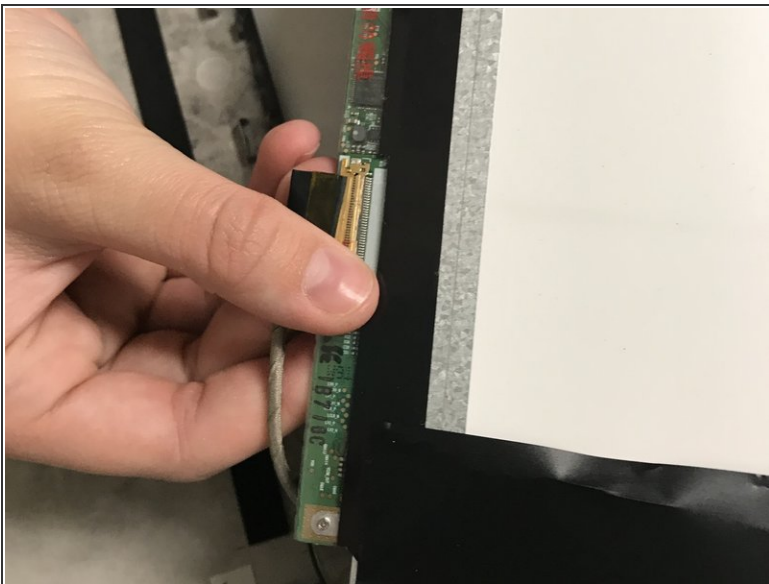

Step 10

● Remove the screws located underneath the plastic caps.

Step 11

- Snap the laptop screen casing off.

Step 12

- Disconnect the grey mesh wire from underneath the unattached laptop screen.

To reassemble your device, follow these instructions in reverse order.
